For me, the passage of the TennCare Network Reporting Reform Act (HB711/SB706) would mean:

---

---

---

---

---

What is the TennCare Network Reporting Reform Act (HB711/SB706)?

- This legislation would require TennCare to publish additional data related to their home- and community-based services (HCBS) and long-term supports and services (LTSS).
- In addition to any other federal network reporting requirements, this legislation would require TennCare to publish data on: percent service utilization, average appointment wait time, and average time between approval for a service and the start of that service.
- This data is requested to be broken down by county, benefit, waiver group, and demographic.
